Today you'll take the scenic route to Monteverde (approximately 4 hours in total). Travel by minibus to Lake Arenal, then cross the water by boat. On the other side of the lake, re-board a minibus and continue to our destination. Monteverde was founded as an agricultural community in 1951 by a group of North American Quakers – they cleared virgin forest to create verdant pastures ideal for dairy farming. These environmentally aware settlers were conscious of the danger that unrestricted settling and farming could cause to this precious habitat. Consequently, they established a small, privately-owned wildlife sanctuary, which has since grown to become the internationally renowned Monteverde Cloud forest Biological Preserve. Perhaps start your exploration with a tour of the suspension bridges that hang in the trees, or head to the Serpentarium to see some crawly critters. More than 2000 species of plants, 320 bird species and 100 different types of mammals call Montverde home.

Special Information

Visitor numbers to Manuel Antonio have been reduced from 3000 per day to 1000. This means it is more difficult to secure entrance tickets for both tour groups and individual visitors. Over school holidays and peak travel season, it is especially difficult. We do our best to secure entrance tickets, but it is possible that on occasion demand will be too high. In these instances, we will include a visit to Carara National Park, home to a variety of animals including crocodiles, monkeys, and two-toed sloths.

Day 9

Destination: San Jose Airport Meals included: Breakfast (B).

There are no activities planned for the final day. You will be transferred back to the airport in time for the group flight. If you would prefer to spend more time at the beach, we can add additional nights for you, and your tour leader can advise where you can get a transfer or public bus locally.
